## PROFESSIONAL SUMMARY

Junior Software Developer with an engineering background and two years of experience in data center sales, demonstrating strong teamwork, problem-solving, and communication skills. Enrolled in Generation Thailand's bootcamp, gaining hands-on experience in full-stack development. Passionate about IT and seeking a role as a Full-Stack Developer or IT Project Manager. Interested in joining leading tech-driven companies in Bangkok.

## PROFESSIONAL EXPERIENCE

**Software developer #9 |** On going  
Generation Thailand

- **Built** web applications using React for the front end, Node.js for the back end, and MongoDB as the database.
- **Developed** key skills for career transition, including a growth mindset, communication, Agile methodologies, and teamwork.
- **Took** on both Product Owner and Developer roles for the final project: an E-commerce platform using the MERN stack.

**Sales engineer | 2022 – 2024**

Vertiv Thailand

- **Managed** and maintained relationships with existing IT partners while expanding the network by acquiring new partners.
- **Collaborated** with internal and external teams to deliver the best solutions for each project.
- **Led** "Kick-off" meetings, providing project details to internal teams after successfully closing deals with customers.
- **Organized** and participated in booth events, delivering presentations on company products and services.

**Flight operation engineer | 2021 – 2022**

Airbus Flight Operations Services Thailand – INTERNSHIP

- **Reviewed** flight operation documents and updated them to align with engineering team requirements.
- **Responded** to technical requests from global airlines, clarifying information based on official manuals.
